Re: Approval to Attend AI for Engineers 2027

Hi [Manager Name],

I am requesting approval to attend AI for Engineers 2027, a three-day conference taking place September 20-22, 2027, at M Resort Spa Casino in Henderson, Nevada.

Why This Event

Applying AI to real engineering work is the number one skills gap across the profession right now. AI for Engineers addresses it directly, with practical, vendor-tested workflows demonstrated by engineers who have already deployed them in production. This is not a general technology conference. Programming is organized into five discipline-specific tracks covering Engineering Design and Automation, Medical Devices and MedTech, Robotics, Energy and Electronics, and Industrial Operations and Smart Manufacturing. Sessions are led by engineers presenting work they have actually built and shipped. Day 3 closes with guided peer-to-peer conversations structured around specific AI topics.

The event is backed by Arrowfly's engineering portfolio of 20+ flagship brands, including [Engineering.com](#), Design World, Control Engineering, and EE World, reaching 2.1 million verified industry readers.

What I Will Bring Back

- Practical AI workflows applicable directly to our work in [attendee fills in discipline]
- Firsthand knowledge of how peer organizations are structuring AI investment across design, operations, and manufacturing
- Discipline-specific sessions from engineers who have deployed AI in environments similar to ours
- Connections with engineers working through the same challenges we are facing
- A clear picture of which AI tools and approaches are delivering results versus generating noise

Estimated Costs

Registration

Tier	Price	Deadline
Early Bird	\$700	March 20, 2027
Regular	\$980	May 20, 2027
Late	\$1,120	August 10, 2027
Onsite	\$1,400	At the door

Note: Qualified engineers may apply for the hosted buyer program, which covers registration in exchange for participating in pre-scheduled 1:1 meetings with solution providers. A \$5 administrative fee applies. Approval is not guaranteed.

Travel and Lodging

Item	Estimated Cost
Airfare (round trip)	\$(estimate)
Hotel (2-3 nights, room block available)	\$(estimate)
Ground transportation	\$(estimate)
Meals (partial — some included in program)	\$(estimate) **Estimated Total** **\$[total]**

Closing

I am confident this event will deliver direct, applicable knowledge we can put to work immediately. I am happy to share a full debrief with the team upon returning. Please let me know if you have any questions or need additional information.
